

Keerthana Devi Govindaraj

Boston, MA | (857) 395-8132 | govindaraj.ke@northeastern.edu | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Northeastern University

MS in Software Engineering Systems | GPA: 3.45 / 4.0

Boston, MA | Expected Dec 2027

SRM Institute of Science and Technology

B.Tech in Electronics & Computer Engineering | GPA: 9.0 / 10

India | Oct 2024

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C++, HTML/CSS

Frontend & Backend: React.js, Next.js, Angular, Vue.js, Redux, FastAPI, Django, Spring Boot, Node.js, Express.js, REST APIs, Microservices

Cloud & DevOps: AWS (EC2, RDS, S3, Lambda, SNS, DynamoDB, KMS, Secrets Manager, ALB, ACM, Route 53, CloudWatch), GCP, Azure, Terraform, Packer, Docker, GitHub Actions, CI/CD, IaC, Serverless

Security & Databases: Zero-Trust, IAM, KMS, BCrypt, SSL/TLS, JWT, RBAC, Secrets Manager | PostgreSQL, MySQL, MongoDB, SQLAlchemy

ML & Tools: TensorFlow, PyTorch, Scikit-Learn, Keras, OpenCV | Git, Postman, Figma, Agile, SDLC

EXPERIENCE

FITA Academy

Full Stack Software Engineer Intern

Chennai, India

Jan 2025 – Aug 2025

- **Built a complete student management platform** from scratch covering enrollment, attendance, progress tracking, admin dashboard, and reporting - handled everything from system design to production deployment
- **Wrote REST APIs in Java and Spring Boot** with JWT auth, role-based permissions, and MongoDB - designed the schema myself to handle large amounts of student and course data without slowing down
- **Worked across React.js, Next.js, Angular, and Vue.js** on the frontend - created shared component libraries so the team could build new features faster without repeating work

Aican Automate

Machine Learning Intern

Chennai, India

Jan 2023 – Mar 2023

- **Built an NLP pipeline using TF-IDF and N-grams** to classify unstructured text - tested Logistic Regression and Random Forest models and got to 87% precision, then packaged it so the team could reuse it on new datasets

PROJECTS

Cloud-Native Serverless Web Application | [GitHub](#)

Python · FastAPI · PostgreSQL · Terraform · Packer · GitHub Actions · EC2 · RDS · S3 · Lambda · SNS · DynamoDB · KMS · Secrets Manager · ACM · ALB · Route 53 · CloudWatch

Spring 2026

- **Wrote all infrastructure as Terraform code** - VPC, EC2 Auto Scaling, RDS Multi-AZ, S3, ALB, Route 53 - nothing was clicked in the console; set up a GitHub Actions pipeline that builds a Packer AMI in the DEV account, shares it to DEMO, and waits for the ASG refresh to finish before the workflow exits
- **Built the email verification flow as a serverless system** - SNS triggers Lambda, which checks DynamoDB first to avoid sending duplicate emails; tokens expire in 1 minute and are tied to the specific user so they can't be reused
- **Locked down security properly** - separate KMS keys for every resource with 90-day rotation, database password stored in Secrets Manager and pulled at boot time, IAM roles scoped tightly per service, BCrypt on all passwords, SSL certificate from Namecheap imported into ACM via CLI

GLIMPSE: AI Sports Commentary Platform | [GitHub](#)

React.js · Redux · Node.js · MongoDB · Google Gemini API · Material-UI · Vercel

Oct – Dec 2025

- **Worked with a team of 4 to build a sports commentary app:** I built the frontend with 15+ React components using Redux and Material-UI, and integrated the Gemini API to generate commentary automatically, which cut manual work by 80%
- **Built the Node.js backend and MongoDB setup:** designed the data models for matches, users, and commentary history, and set up Vercel to deploy automatically on every merge

Eye Tracking Based ASD Diagnosis | [GitHub](#)

Python · CNN · TensorFlow · PCA · OpenCV

- **Used CNNs and PCA to detect early signs of ASD from eye-tracking data** - applied transfer learning and got 20% better accuracy than the baseline model across 10,000+ samples
- **Built the full data pipeline in OpenCV** - handled frame extraction, normalization, and feature prep from raw sensor data; wrote it up and got it published as a research paper
